

# What do I do with this old app?

@ross\_p\_smith  
Technical Evangelist

Microsoft

# .NET App Modernisation

# Ideal targets for containerisation

- ASP.NET, when App Services not suitable
- Traditional 3-tier apps
- Azure Cloud Services (Classic)

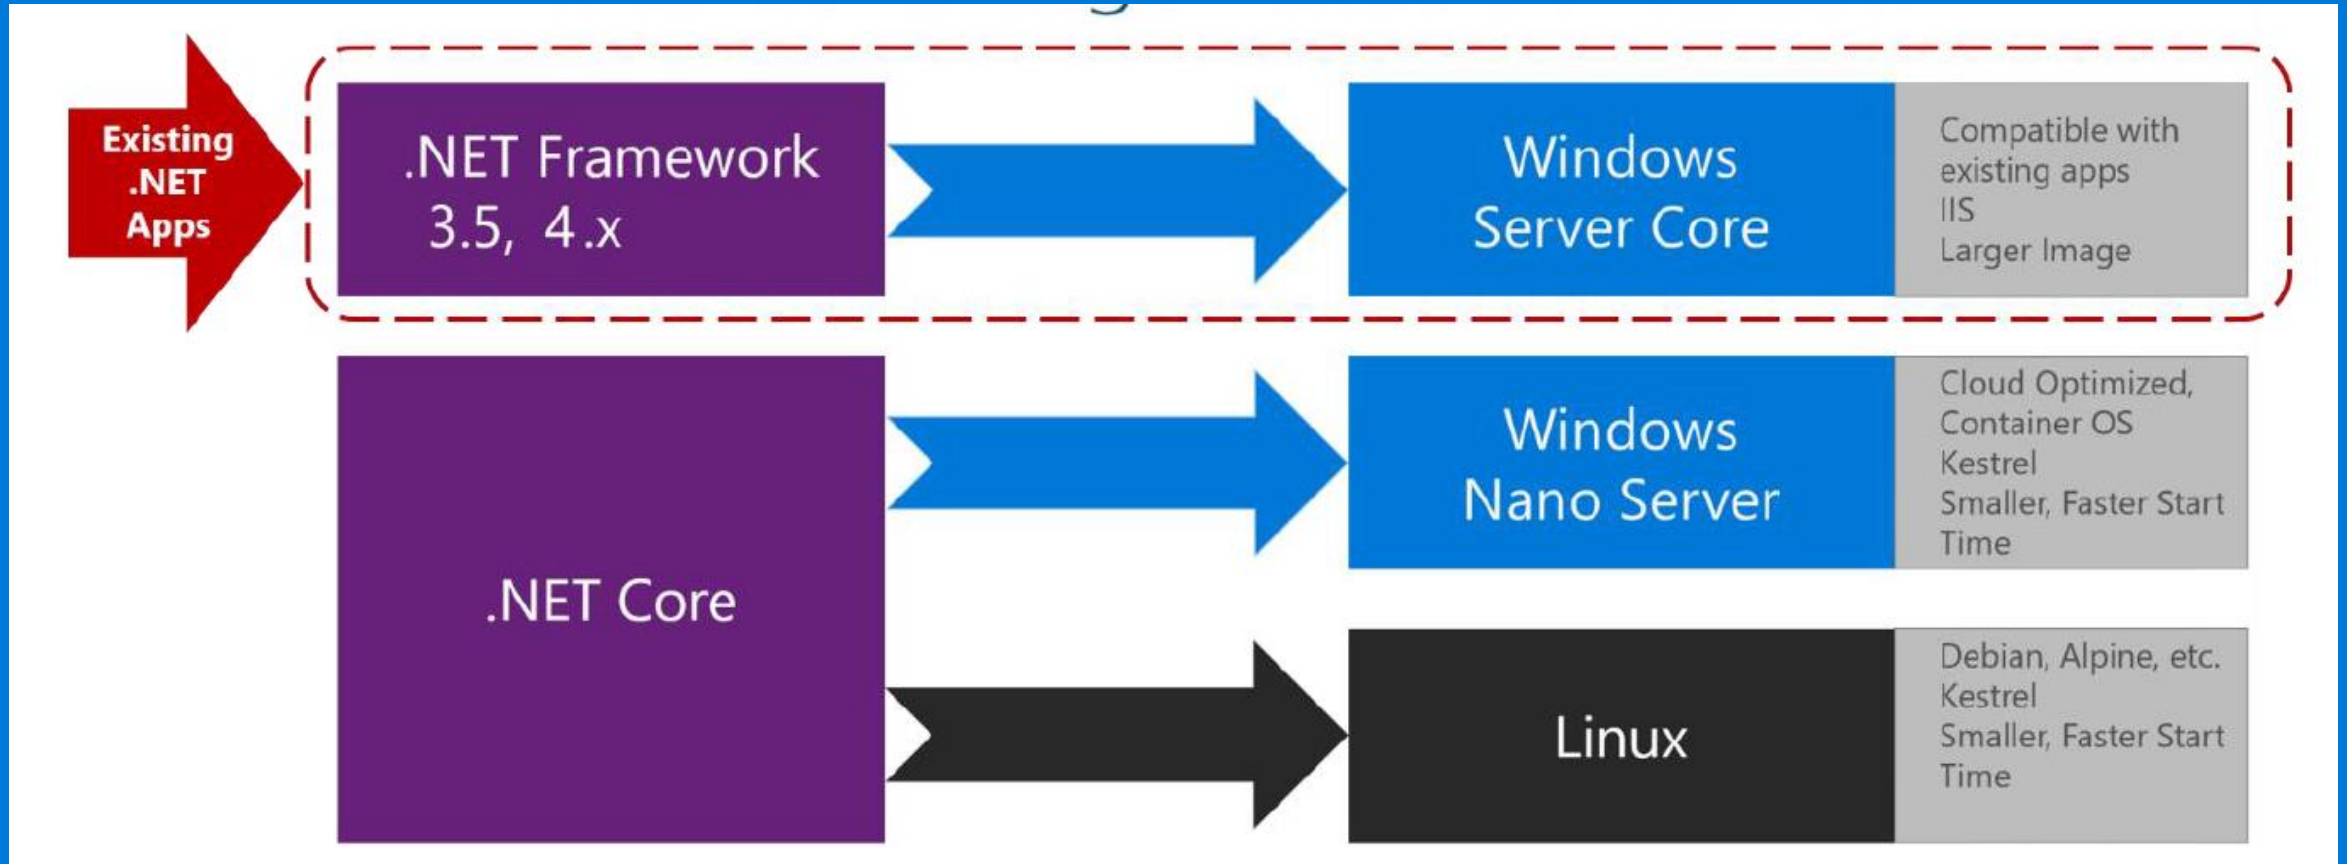

## Running modes for Windows Container

- Windows Server Containers (shared kernel, similar to Docker on Linux)
- Hyper-V Isolation (enhance security useful for multi-tenant)
